

FAVOURED MEDIA

Clean, simple wall storage for light media or centre speakers

DESIGN BRIEF

Favoured Media is designed to provide simple, stylish wall storage for favourite media such as DVDs and CDs or support for centre speakers in home cinema systems. Its clean contemporary lines enhance any interior design style and complement the Futureglass GEM hi-fi range. Favoured Media storage units are available in three different widths. The centre speaker support version can be supplied in four different sizes. Favoured Media is simple to install and fix to a solid wall and the toughened safety glass to BS 6206A is designed for long life. The wire loop retaining system makes it easy to level shelves, even if the brackets are not installed perfectly level.
